Re: Alleged Violations Letter
City of Shakopee

Dear Mr. Landgraf:

On behalf of the City of Shakopee, this is our written response to the Alleged Violations Letter that was received on April 20, 2017.

The findings of the Alleged Violations Letter dated April 20, 2017 identified two items that were considered alleged violations as a result of the Municipal Separate Storm Sewer System (MS4) compliance audit that was conducted on March 9, 2017. Below are the corrective actions that have been completed within the requested timeframes for the two alleged violation items:

1. Effective immediately, begin documenting each site inspection using an inspection checklist or other written means as required under Part III.D.4.f.(2) (page 14).

Corrective Action Completed 04/26/2017

The City, along with their designee, will initiate construction site inspections using the inspection checklist that is included in the written procedures for Minimum Control Measure (MCM) 4: Construction Site Stormwater Management. All inspections will be documented in accordance with the written procedure for MCM 4: Construction Site Stormwater Management.

2. Effective immediately, initiate revisions to the Post-Construction Stormwater Management program to include a regulatory mechanism(s) that incorporates the requirements under Part III.D.5.a.(1)-(4) (pages 15-17).

Corrective Action Completed 04/26/2017

A draft of the revised Water Resources Management Ordinance has been prepared and is under final review with City staff. The draft language provided in the Water Resources Management Ordinance is intended to meet the Post-Construction Stormwater Management program requirements. It is anticipated that the draft ordinance language will be presented to the City Council as soon as the final review by staff is complete. The estimated final adoption date is July 2017.

This concludes the required actions that were to occur as specified in the Alleged Violations Letter.
Please contact me at 952-233-9361 or by email at bloney@ShakopeeMN.gov if you have any questions.

Sincerely,

Bruce Loney, Public Works Director
City of Shakopee
