Project #CIF-23-016

Project NameTraffic Signal - CSAH 101 & Shenandoah Drive

Accounting Code
Fund

Description

Total Project Cost: \$920,000

The construction of a traffic signal and intersection improvements are expected to be warranted in the future with the increased traffic in the area of CSAH 101 and Shenandoah Drive. Additionally, a 500-ft section of Shenandoah is proposed to be widened just north of Unbridled Boulevard to add a 2nd northbout lane as recommended in the Canterbury Amphitheater EAW.

The improvements will be paid for by the area remaining Amazon TIF funding and Canterbury TIF funding.

Justification

The Canterbury areawide transportation study identified the need for a traffic signal at CSAH101 and Shenandoah Drive. Heavy truck and traffic volumes create backups on Shenandoah Drive. Additional development of the Canterbury area will further increase traffic through the intersection.

Expenditures	2023	2024	2025	2026	2027	Total
Improvements	600,000					600,000
Engineering/Administration	320,000					320,000
Total	920,000					920,000

Funding Sources	2023	2024	2025	2026	2027	Total
Tax Increment Financing	920,000					920,000
Total	920,000					920,000

Budget Impact/Other

The total project cost is estimated at \$920,000, understanding that this is a place holder for a traffic signal system with minor intersection and turn lane improvements. A final project budget will be presented once final intersection and turn lane improvements have been identified.
