**RE: PUD Amendment**
**Canterbury Sign**

Dear Mark:

We have reviewed the PUD Amendment for the Sign and offer the following comments:

- The County is not opposed to Canterbury improving their business sign. However, the County is not supportive of any motion, video, or flashing of the changeable sign. CH 83 and 12th Avenues is a high volume roadway with a number of users unfamiliar with the area attending events. Large electronic signs with motion, video, or flashing can be a distraction to motorists navigating this signalized intersection. We recommend time between messages be as long as possible to not create constant flashing of messages at this intersection.

- It is also unclear from information provided how the brightness of the sign at night will impact the visibility of the signal and other critical signage.

- No signage, or landscaping shall be permitted in the County right-of-way. The existing sign and landscaping is located within existing easements. The sign and landscaping will need to be located outside these easements.

Thank you for the opportunity to comment. If you have any questions, please feel free to contact me.

Sincerely,

Craig Jenson
Transportation Planner
