What equipment or special project are you asking us to help fund? Shakopee Fire Department is requesting funding for a four-gas monitor and calibration system.

Equipment/special project description (brief) Funds will be utilized to purchase a MSA Altair 4XR Gas Detector (\$967.85) to detect O₂, CO, H₂S, and LEL gas levels, and its corresponding calibration system, including a MSA Galaxy GX2 Test Stand (\$2377.95), MSA GX2 Smart Cylinder Holder (\$1389.40), MSA Galaxy GX2 SD Card (\$49.00), and MSA 34L Gas Cylinder (\$341.25).

Total equipment/special project cost \$ 5125.45

Amount of funding request \$ 2500.00 (Maximum is \$2,500. Funding request cannot exceed 50 percent of total equipment/project cost.)

How will your request benefit the community? The Shakopee Fire Department will utilize this gas monitor to detect harmful levels of gas and low oxygen levels when on calls by safely entering buildings and determining whether the air quality is at safe levels to breathe. This monitor will assist in keeping the city's firefighters safe while they work to keep the residents safe.
