Subject: RE: Early Start request for CSAH 101 & Shenandoah

Thanks for the quick answer Micah. Yes, I would like to put in a request to start at 6 AM on this project. The time frame would be from now until October 25th, 2024

Thanks,

Deon

Deon,

Per City Code, construction hours are 7 am to 10 pm. Staff is not at liberty to change that and a request for an early start would need to be reviewed and approved by City Council. The next opportunity to get such a request in front of Council would be next Tuesday (8/20). We would need to know tomorrow if you want to move forward with such a request and that can be via a simple memo or letter.

Subject: Early Start request for CSAH 101 & Shenandoah

Good aFternoon,

For our Median work in CSAH 101 we would like to start at 6 AM tomorrow. Is this acceptable? This is only for our work in the highway, not at Unbridled.

Thank you,
