

PROPOSAL: ACADEMY CHAMPION

**ACADEMIES
OF SHAKOPEE**

SHAKOPEE HIGH SCHOOL

FALL 2018

Interim Superintendent: Gary Anger

Greetings Scott County, City of Shakopee, Staff & Community!

Educational opportunities that impact both students and community are far and few between. However, the Shakopee community is at the cusp of an opportunity exactly like this as we expand our current high school and begin to rethink our vision and mission for our students and their experiences. Our students need relevant, authentic learning and real world experiences connected through community, business, and post-secondary partnerships that emphasize career readiness skill development.

As a district, we are not asking for just a traditional monetary commitment. We are also looking for something more valuable: your time, talent, and treasures. The Academies of Shakopee will change the traditional learning model to meet the needs and expectations of our students. No longer are the days of strictly job shadowing and field trips. Our students are now looking for authentic experiences that will help them grow as individuals, and feel the impact of working with professionals. They are thirsty for real world knowledge and realize the importance of being college and career ready. As industries and businesses become more technologically advanced, the skill set required for students to be successful in the real world continues to change.

This is where businesses as accomplished as Scott County and the City of Shakopee would make a huge impact in the lives of our students. We are submitting a proposal and kindly requesting your partnership as an Academy Champion within the Academies of Shakopee. Our vision is to have you as the prominent partner for our Human Services Academy. The Human Services Academy will give students the ability to apply their course work across all academic disciplines. Human services courses benefit both the community and students while encouraging students to look beyond themselves to serve others. With your support, our students would work directly with your team to gain mentorship opportunities, professional development, experience, and perspective.

The proposed partnership would create endless possibilities of fun, experiences, exploration and thrills with Scott County and City of Shakopee leaders, staff, and our students to include, but not limited to the following opportunities and skills: public service, social and mental health services, law and legal, interpersonal and leadership skills, business management, finance, as well as business dynamics. Simply put: it would allow our students to turn their goals and aspirations into reality. Our mission is to prepare students to be college and career ready. A critical aspect of this mission to provide an opportunity for students to explore, find their interests and passions.

I hope you see the importance of our mission with the Academies of Shakopee and I look forward to speaking with you further about our potential partnership.

Sincerely,

Gary Anger
Interim Superintendent
Shakopee Public Schools

THE ACADEMIES OF SHAKOPEE

The Academies of Shakopee Master Plan is a community supported plan that aligns local and state initiatives to provide every student with the foundation of knowledge, skills and character necessary to excel in higher education, work and life.

In the academies, all students take rigorous core academic subjects, electives and specialized courses in a career-focused area in order to achieve academically at high levels and prepare for college, work and active citizenship.

Teachers incorporate real-world examples into all academic and specialized courses to show the relevance of coursework.

The Academies of Shakopee will offer smaller learning communities. Students will work with classmates who share their interests and a common team of teachers. The academies will help them build stronger relationships and promote a sense of belonging.

Local business and community partnerships will also provide students with interactions that ensure readiness for post-secondary education and career options.

**ACADEMIES
OF SHAKOPEE**

SHAKOPEE

THE FORD NGL FRAMEWORK FOR COMMUNITY-DRIVEN TRANSFORMATION

The Academies of Shakopee will align with the business community and post-secondary institutions to create a pipeline of talent into high demand career areas. Equipped with the 21st-Century Skills necessary for higher education, work and life, students will experience academic success, improve the local workforce talent pool and promote regional economic development.

The Academies of Shakopee will offer:

- Preparation for college AND high-demand, high-wage careers
- Opportunities for students to find and follow their passions
- Increased parent and community involvement
- Personalized learning environment for ALL students
- More engaging curriculum and instruction
- Increased student achievement and graduation rates
- Highly educated workforce and regional economic growth
- Real-world experiences such as job shadowing and internships

FORD NEXT GENERATION LEARNING

Education Innovation

\$300^K over 5 years

A collaborative community-driven approach to achieve the following outcomes: (1) increased community prosperity shared by all; (2) a strengthened talent pipeline; (3) young people prepared for college, careers, lifelong learning, and leadership; (4) educational equity and justice for all; and (5) the capacity to contribute and go further.

What We Value

Ford NGL comprises a network of mutually supportive communities that encourage one another to continuously improve. They seek opportunities to innovate and go further in their quest to increase student achievement, improve workforce and economic development outcomes, and ultimately achieve community prosperity.

The Ford NGL communities share a set of common values, which guide the communities' work and their contributions to the network. Our guiding principles include the following:

- **Igniting passion:** Ford NGL communities are committed to preparing all students for success in college, careers, and life, as well as helping students ignite their passion as lifelong learners.
- **Cultivating trust:** Ford NGL communities foster a culture of collaboration in which everyone—students, teachers, administrators, families, employers, postsecondary educators, and nonprofit and civic leaders—works together to build a climate of trust that welcomes all perspectives. The community stakeholders understand that in order to scale and sustain a successful career academy network, all stakeholders must be part of visioning, planning, implementing, sustaining, and going further.
- **Demonstrating leadership:** Ford NGL communities are committed to modeling the practices we seek to see in transformed classrooms. They don't take this role lightly—they understand the importance of cultivating student success and their obligation to demonstrate quality leadership.
- **Encouraging innovation:** Ford NGL communities are always learning and adapting, demonstrating flexibility, and promoting innovation.

Our Mission

Global competitiveness depends more than ever on the role of K–12 education in establishing the strong foundation essential for preparing a 21st century workforce. Ford Motor Company Fund's Ford Next Generation Learning (Ford NGL) is a unique and comprehensive community initiative that brings together educators, employers, and community leaders to implement a proven model for transforming secondary schools, which ultimately improves the regional workforce development system. Ford NGL supports a growing number of communities that are committed to expanding and strengthening their networks of transformed secondary schools.

These schools infuse the high expectations and academic rigor of college preparatory academic programs with the real-world relevance and rigor of career and technical education (CTE). Students choose from among career pathways across a variety of sectors that drive economic growth in their communities. Ford NGL uses the power of workplace relevance and business relationships to excite young people about education—STEM (science, technology, engineering, and math) education in particular—and to prepare them for college, careers, and life.

First and foremost, students are at the center of everything we do.

We help communities prepare the future scientists, inventors, public servants, and entrepreneurs who will apply their passion and expertise to improving the world for both their generation and those to come.

Ford NGL Framework

Ford NGL mobilizes educators, employers, and community leaders to prepare a new generation of young people who will graduate from high school ready for college, careers, and life—prepared to compete successfully in the 21st century economy.

Ford NGL blends the expertise of stakeholders within and across communities. Three distinct but interconnected strands comprise the Ford NGL framework, which enables whole communities to design and carry out a long-term plan for revitalizing education.

Career and Interest-Themed Academies

Career and interest-themed academies serve as the Ford NGL practice model for transforming the secondary school experience. As a strong advocate on behalf of academies, Ford NGL recognizes that most skilled employment now requires a foundation of academic, 21st century, and technical knowledge and skills that must be mastered in high school, as well as additional education beyond high school. We believe that the most successful approach for high schools is one that infuses the high expectations and academic rigor of college preparatory academic programs with the real-world relevance and rigor of CTE. Such an integrated approach also promotes, supports, and accelerates a smooth transition to postsecondary education.

This approach can be carried out through academies, which may take several forms, including multiple career academies and other themed programs within a large high school, single-themed small or large high schools, and early-college high schools (which typically blend high school with two years of college).

Regardless of their specific structure, all effective programs share three key characteristics:

- The career or thematic program of study selected by the student leverages an **area of personal interest and integrates it with core academic knowledge**. This integrated program of study is offered within a small learning community.
- The academies are not stand-alone “boutique” programs but are part of a district strategy to offer a **portfolio of approaches (“multiple pathways”)** so that every student has the opportunity to choose a program that fits a personal interest.
- The programs offer **extensive real-world contact with adults** currently working in the field or area of interest, and they enable students to earn dual enrollment and/or articulated college-level credits while still in high school.

Essential Practices

A set of Essential Practices for each strand provide specific guidance to help Ford NGL communities implement the model, addressing such questions as the following:

- What teaching strategies not only engage students in developing essential knowledge, skills, and dispositions but also spark a passion for lifelong learning?
- How should high schools be organized to create and sustain high-quality career and interest-themed academies that put students on pathways to productive and exciting futures?
- What are the elements of successful collaborations among educators, employers, and community leaders that support the scaling and sustaining of highly effective academies?

The Essential Practices for each strand are drawn from the strategies shown to be effective by successful Ford NGL communities. They offer a foundation for a Ford NGL Master Plan for other communities to follow in scaling and sustaining their own career and interest-themed academy networks.

The Ford NGL framework outlines a process that involves all stakeholders in school reform. When the Ford NGL framework is implemented with fidelity, everyone has a voice and responsibility in educating our children. The results of the process lead to a community blueprint for reform, community ownership of educating children, and a new accountability structure that transcends the school district.

—Dr. Jay Steele, Chief Academic Officer
Metro Nashville Public Schools

Ford NGL Roadmap

The Ford NGL ongoing journey consists of five phases:

COMMUNITY SUCCESS

PHASE 5: GO FURTHER

1. Deepen and broaden the community-driven transformation and apply it to the entire education system.
2. Create and share innovations that will support the entire Ford NGL network, or "serve as models for creativity, innovation, and risk-taking as well as demonstrated competence."

PHASE 3: PLAN

1. Achieve community-wide consensus on and ownership of a vision for transformation and learn what it will take to implement the vision.
2. Create a community-wide three year master plan for achieving the vision that is aligned with the school district's plans.
3. Agree on a set of priorities for the first year of implementation.
4. Strengthen the systems, structures, processes, and competencies needed to implement the plan and guide continuous improvement.

PHASE 1: EXPLORE

1. Understand the benefits and features of transforming the secondary school experience using the Ford NGL community-driven approach.
2. Readiness and commitment to embrace the Ford NGL transformation.

PHASE 4: IMPLEMENT

1. Strengthen community-wide capacity to implement and continuously improve the master plan.
2. Implement the systems, structures, processes, and competencies to support and sustain continuous improvement, with all key individuals and groups engaged.
3. Inspire, share and contribute to the Ford NGL network.

PHASE 2: ENVISION

1. Deepen community-wide understanding of the benefits and features of transforming the secondary school experience using a community-driven approach.
2. Understand and develop the systems, structures, processes, and competencies needed to implement the plan and guide continuous improvement.
3. Deepen community-wide commitment to embrace the Ford NGL model for transformation.

Ford NGL Communities Are Seeing Results

Increased high school graduation rates

Increased academic achievement

Improved preparation for college, careers, and life

Development of students' 21st century skills

Increased number of students graduating from high school with industry certifications and college credits

Increased earning potential

Strengthened talent pipeline

Benefits of the Ford NGL Network

Communities benefit from access to the Ford NGL network, which cultivates a spirit of innovation aimed at improving the practices used across our communities. Each Ford NGL community has a dedicated Ford NGL Coach, who supports and guides communities as they develop and implement a Ford NGL Master Plan to scale and sustain a career academy network and prepare students for high-skill, high-wage careers. Ongoing access to innovative approaches that emerge from the network help communities develop the local capacity to sustain community engagement and continue to transform the high school experience.

Specific support includes the following:

- Seminars and workshops that introduce the Ford NGL framework and Essential Practices
- A proven strategic planning process that provides a roadmap for phasing in the Essential Practices over three to five years
- A dedicated Ford NGL team to guide and support the community through the strategic planning process
- A guide to the process that includes examples of successful implementation and innovation
- Access to innovative approaches and ongoing opportunities to collaborate with and learn from colleagues throughout the national Ford NGL network
- The Leading Source (www.theleadingsource.org), an online learning center that provides an inside look at and access to the valuable tools and resources used by communities that have been successful in planning and implementing Ford NGL
- Peer-to-peer mentoring support on specific Essential Practices
- Professional development opportunities to build the capacity of community leaders and educators

REAL WORLD
experience
FOR SHAKOPEE STUDENTS

WE DON'T STOP THINKING ABOUT

TOMORROW

**FORD
NEXT GENERATION
LEARNING**
Education Innovation

HUMAN SERVICES ACADEMY

Our Human Services Academy will give students the ability to apply their course work across all academic disciplines. Human Services courses benefit both the community and students while encouraging students to look beyond themselves to serve others.

SHAKOPEE

ACADEMIC SUPPORT

The Academies of Shakopee will allow our students to experience a sense of belonging within a large high school setting as each student will be part of a smaller learning community in their chosen academy.

Our Human Services Academy will give students the ability to apply their course work across all academic disciplines. Human Services courses benefit both the community and students while encouraging students to look beyond themselves to serve others. Career fields include human development, psychology, education, legal fields, law enforcement and public services.

In the Human Services Academy, Scott County and the City of Shakopee would provide a professional perspective to students in an academic setting.

PROFESSIONAL EXPERIENCE

In the Human Services Academy, students will be provided with a variety of experiential learning opportunities.

Scott County and the City of Shakopee would help mentor students and provide them with real-world experiences, career and college exploration, goal setting, planning, business management and administration, public service as well as leadership skills.
