- Equipment Specifications subject to change
- Quote valid for 30 days from date of quotation

* Chassis modifications including, but not limited to alterations or relocation of components related to fuel tanks, air tanks, brakes, exhaust systems, battery boxes, protrusions above and below the frame rails, shortening or lengthening frame rails and the like will be added to the selling price. **Mfg's Surcharges may be added to this quotation.

Exhaust Systems: With the new EPA mandated diesel exhaust systems for 2007 and newer many changes are taking place. Manufacturers are often unable to depict accurately how the exhaust systems are configured and have difficulty stipulating whether certain components (i.e. PTOs and pumps) may fit in the confined spaces beneath the truck. 2007 EPA COMPLIANT DIESEL EXHAUST SYSTEMS CANNOT BE MODIFIED, RELOCATED OR REPLACED BY ASPEN EQUIPMENT. Due to evolving designs, Aspen Equipment can not maintain expertise on every chassis/engine/transmission/exhaust configuration possible, regardless of who orders or specifies it. Nor can Aspen Equipment guarantee that a chassis ordered today will not change in design prior to delivery from the factory. Therefore, Aspen Equipment does not warrant that quoted products can be installed on a chassis without modifications to the chassis or products installed. As such, Aspen Equipment will not be responsible for the cost of modifications due to exhaust systems conflicting with the installation of quoted products. Aspen Equipment will make every reasonable effort to ensure that installations are completed without additional charges to the customer.
