Dear Ms. Lusian:

This letter is in response to your decision to participate in Scott County's sub-grant program for your City's One Day Clean-up event. The amount of funding available to each City or Township is based on demonstrated need and population.

The amount of funding available to the City of Shakopee this year is \$9,355.63. Due to Louisville and Jackson Township's desire to join your City's event, their total funding amount will also be transferred to you. Therefore, the total funding amount for your City's One Day Clean-up event will be **\$10,044.51**. In addition, **\$500.00** will be added to your sub-grant if your city hosts a document shredding event. If your City plans on holding a **fall clean-up day**, another **\$9,355.63** will be available to help to cover the costs of that event.

You will be receiving two (2) Recycling Program Agreements that require signatures and one agreement will be returned later for your records.

The City is responsible to acknowledge the participating Township(s) in all advertisements and invite the Township residents to participate in the event. Any municipal solid waste (MSW) and/or demolition/construction waste collected at your collection day event that requires landfilling will not be funded with this county sub-grant program.

Before your check can be issued, please submit the required follow-up information within 90 days of your city's collection day event. This information will be provided by filling out and submitting the "AFTER THE COLLECTION DAY" form. Please note that for those cities combining their event with a township, a copy of the advertisement (and where it was published) must also be provided before your check can be issued.

If you have any questions or concerns please feel free to call me at (952) 496-8473.

Sincerely,

Steve L. Steuber

Dear Ms. Lusian:

Scott County is again offering grants to assist cities and townships with clean-up events. We are excited to announce that there are **additional grant dollars available** for those that are interested in collecting new items (see enclosed) or hosting an additional clean up event. Whether or not you have indicated in the past that your city or township is interested in this grant, we feel it is important to at least inform you of this opportunity each year.

If your city or township is interested in providing a clean-up event, please respond in writing or e-mail at ssteuber@co.scott.mn.us no later than January 9, 2019. If you are also interested in applying for the additional grant funds that are available in 2019, please explain in the e-mail the **new items or events** you would like to offer. Please call if you have any questions or want to discuss additional recycling ideas. **Only those cities and townships that respond by January 9, 2019, will be considered for this year's Spring Clean-up Day/s grant program.**

As has been done in the past, the amount of funding available to each city or township will be based on the percent of population totals for only those cities and townships that respond by the deadline. You may elect to coordinate with other communities for this event. Townships that choose to work cooperatively with cities shall notify the city and this Department. Following notification, the townships' funds will be transferred to the city for the event. The city is required to acknowledge the township/s in all advertisements and accept the township's residents to participate in the event.

Once our Department has been notified which cities and townships are interested in this grant, letters will be sent out that will include the exact amount your city or township will receive. Also, you will be sent an agreement to sign and forms that are to be completed after the event.

Please feel free to call me at (952) 496-8473 with any questions.

Sincerely,

Steve Steuber
