

Wayfinding

Kiosk types

- Level A
 - Single or double-sided
 - Trailheads
 - Major trail intersections
 - Trail maps
 - System Maps
 - Flexible space
 - Trail rules

Wayfinding

Phase I: Shakopee

- Proposed Kiosk Locations

- Downtown – Type A

- State Trail and Huber Park Connection
 - Busy downtown area @ 1st Ave E and Holmes St. S

Recognizing the exciting plans for downtown and improved connections to the river, much of the proposed is flexible and could be moved as the area evolves

Wayfinding

Proposed Kiosk Locations

Wayfinding

Propose replacing the existing green Bike Boulevard Signs on Holmes Street and Bike Route signs on 10th Avenue.

Add Share the Road Sign

Wayfinding

- Propose adding sharrows (Shared Lane Markings)
 - To reinforce road sharing

Wayfinding

- Our goal is consistency with the master plan and connecting residents with local and regional facilities. The proposed kiosks, signage, shared lane markings, and striping should move that goal forward.
