

ID	Submission Date	When talking with residents about this future park, we heard that residents wanted a park design that protected the trees on the site, had passive open spaces and felt like "an extension of the neighborhood's backyard." Do you feel this park design meets those goals?	If you answered "No" please tell us why:	Do you feel this park design meets the goals of a Neighborhood Park?	If you answered "No" or "I'm not sure" please tell us why:	The proposed design reflects a park that I/My Family would use:	If you said you or your family would not use this space, please tell us why:	The new park will serve residents on both sides of Stagecoach Road. How would you get to the park?	Do you have any concerns about you or your family walking/biking to this new park?	Before I received the postcard or saw information on the city's website, I was aware a park was planned for my neighborhood:	Any other feedback about this park or other parks to share?	Please select the option that most closely applies to you:
321993	5/9/2020 9:00	Yes		Yes		Sometimes		Walk or bike	None	Yes	Looks like a nice design	I live a 0-5 minute walk from the proposed park
322315	5/9/2020 17:17	No	Because ideally the trees should be cut down. Waste of tax payer money for some Shaded place with mosquitoes	Yes		Not at all	The space is too small and not real Area for activity Along with large ugly trees	I/My family would not use the park		Yes		I live a 0-5 minute walk from the proposed park
322317	5/9/2020 17:23	Yes	more trees the trees are being protected in the park and that is in our opinion, the number one priority. Our concern with the design is the lack of area for the kids in the neighborhood to play. The turf lawn is very minimal and the trail would be difficult for bikes to ride on, especially for young kids. I like the idea of some native grass areas, but would like to see more area maintained that can be used by the residents. The new homes that went in have rather small yards and the kids deserve an area to enjoy. To balance out the larger grass areas maybe a moderate playground could be installed and a few more paved paths	Yes		Often		Walk or bike		Yes		I live a 0-5 minute walk from the proposed park
322437	5/9/2020 21:52	No		I'm not sure	It's a nice design, but my concerns are that the kids in the area don't have much space to enjoy, and based on the size of the current turf area it would be limited in who could enjoy and use that space. Rough guess would say it's about 1/5 of an acre. The concept above, but with mowed grass, preserving the trees as planned, and with winding paved trails would offer more recreation for the area residents given there is not another park in close proximity. A modest playground would be welcomed.	Sometimes		Walk or bike		Yes	We are very excited to have a park in our neighborhood and look forward to finalizing a design the preserves the trees, the feel of the neighborhood, and gives all the children a great space to be kids. There are a lot of kids and many young families that live in the area or are moving in to new homes being built. It is critical to consider them in the design of this park.	I live a 0-5 minute walk from the proposed park

322559	5/10/2020 11:35	No	If money is going to be used, my tax dollars, right now you could go over there and set up a grill and picnic on the grass. I see no plans for a shelter, no plans for any playground but just a grassy spot which I have in my yard. The number of parking spots show only space for 4 cars, at little light.	No	No playground equipment, no shelter	Not at all	I have more space on my lot than here. There are no facilities that would add appeal.	Walk or bike	No	I had heard absolutely nothing about this.	I live a 5-10 minute walk from the proposed park
322611	5/10/2020 13:26	Yes				Often		Walk or bike	No		I live a 0-5 minute walk from the proposed park
322649	5/10/2020 15:09	Yes				Sometimes		Walk or bike	Yes	It would be nice to have one play structure or swing set, there is not one within walking distance. There are a lot of families in this area that would likely use it.	I live a 5-10 minute walk from the proposed park
322725	5/10/2020 18:49	Yes				Often		Walk or bike	No		I live more than 15 minutes walking distance from the proposed park
322925	5/11/2020 8:39	Yes				Often		Walk or bike	Yes		I live a 0-5 minute walk from the proposed park
322928	5/11/2020 8:42	Yes				Often		Walk or bike	Yes		I live a 0-5 minute walk from the proposed park
323496	5/11/2020 14:28	Yes				Often		Walk or bike	No, it is a safe area.	No	I live a 5-10 minute walk from the proposed park

323610	5/11/2020 15:32	Yes	Sometimes	Walk or bike	We need crosswalks. Especially to access business on Crossings BLVD.	No	a Pavillion would be nice to be able to use the park in bad weather	I live a 0-5 minute walk from the proposed park
324737	5/12/2020 16:27	Yes	Sometimes	Drive		No		I live a 10-15 minute walk from the proposed park
325172	5/13/2020 8:16	I'm not sure	Sometimes	Walk or bike		No		I live a 0-5 minute walk from the proposed park
325521	5/13/2020 13:01	Yes	Often	Walk or bike	No	Yes	Great idea - we look forward to it!	I live a 5-10 minute walk from the proposed park
328366	5/15/2020 21:29	Yes	Often	Walk or bike		No	A small play ground/tot-lot for the neighborhood kids???	I live a 0-5 minute walk from the proposed park
328367	5/15/2020 21:30	Yes	Sometimes	Walk or bike		No		I live a 0-5 minute walk from the proposed park
332909	5/20/2020 15:54	Yes	Not at all	Walk or bike		Yes	A fence separating the park from the homes.	I live a 0-5 minute walk from the proposed park
334879	5/21/2020 21:53	No	Sometimes	Walk or bike	I feel that a paved trail would be much more functional for kids and families to bike, scooter, walk, or run on. The "lawn area" seems much too small to be used for a gathering or recreational area.	A paved path would be more functional for walking and biking.	Yes	I live a 0-5 minute walk from the proposed park
