

PETITION FOR UNDERGROUND ELECTRIC FACILITIES

SHAKOPEE, MN

Shakopee Ave East Property Owners

The undersigned would like to request a public project to underground the overhead electric facilities in the backyards north of Shakopee Avenue and east of Marshall Road. We understand that we are responsible for an underground electric charge of \$606 and would like the City of Shakopee to offer to add this fee to our assessments as part of the 2017 Street Reconstruction project. We also understand that, should we be assessed this fee, we will be responsible for a financing charge of approximately 5% (actual percentage will be determined by bond rates at the time assessments are established) and by signing this petition, we understand that we agree to waive our right to appeal this assessment. It is understood that we will have an option to pay the fee directly to Shakopee Public Utilities should we decide not to be assessed.

Please be advised that there are currently 39 properties that receive electric service directly from the overhead line, and the below signatures reflect the total number of property owners in favor.

PETITION

The undersigned request a public project with assessments to underground the overhead electric facilities in, crossing or adjacent to our backyards.

1. Name: Jon Lego Address: 1813 Shakopee Ave
2. Don Lansen 1731 Shakopee Ave
