The big open space isn't used much and has so many possibilities that could be put there to help encourage physical activity.

6/22/2020 9:46	0-5 minutes walking distance from the proposed park	As a quiet space to retreat and relax; Full of kids playing	Just a playground; jungle gym, swings, slides, etc.	Calm and undisturbed	I would NOT feel safe or welcome with a basketball court. Basketball courts bring in large groups of people and they are very noisy. A basketball court would also bring in more people and vehicles. There is already issues with people speeding on Jennifer Lane. In addition, I do not like the idea of any type of pavilion or shelter because that causes older kids to gather outside of park hours.	I want them to feel safe. I also think it is important to have a jungle gym that suits both very small children and kids that are pre-teen.	A mix of both manicured lawn and prairie grass	Sometimes	Yes	Yes	Yes		The basketball court should be kept at this location.
6/22/2020 10:09	0-5 minutes walking distance from the proposed park	As a quiet space to retreat and relax	no basketball court because of; noise, trouble, large groups gathering, etc. no pavilion or shelter for the same reasons to include encourages after hours trouble or a place to cause trouble. There is already a problem with vehicles speeding down Jennifer Lane and basketball courts, sports fields, and shelters/pavilions will add to that.	Calm and undisturbed	the park should be a playground for young children up to preteen. The actual playground equipment should be placed as far northeast on the park property to mitigate the amount of traffic increase in the meadow ct cul de sac.	safe, not have to worry about increased vehicles. The cul de sac of Meadow Ct is a very calm and safe area for young children to run around and play.
