Re: Windermere Working Hours

Dear Mr. Halverson:

DR Horton hereby requests an extension to the allowed working hours for development activities in Windermere. The following hours are proposed:

Monday – Friday	7:00 AM – 8:00 PM
Saturday	8:00 AM – 5:00 PM
Sunday	No Work

As the City is aware, the project's scope of work creates an aggressive schedule. This includes the County Road 15 and 16 improvements, high pressure gas line relocation, large volume of earthwork, as well as the trunk sanitary and storm sewer improvements. Additionally, Scott County requires County Road 15 to be completed prior to school opening in early September 2017.

The project has taken longer to get started due to all of the various agencies that needed to provide input into the final design of the project. In order to complete this development by this fall than the longer work hours our needed to ensure completion of the project.

The project site is located on the outer edge of the City with minimal neighboring homes. Efforts will be made to work away from the existing homes during the extended hours. Also with the project lying just south of Highway 169 the area will not experience any more noise than what is already generated by the traffic on the highway.

We appreciate the City's consideration in allowing extended hours of operation.

Respectfully,
