

Information

Southeastern mound (Md 13) reported to be 64' from fenceline north of First Street, now Highway 101.

Mound 4 reported to be 302' from corner of Block 30. Block 30 was adjacent to an open field ("OUTLOT"). Exception of this outlot is not made clear on Andreas (1874) and it may be the block corner referenced by Lewis.

Adjusted for 1882-1884 declination which was ~9.0-9.25° E according to NOAA.
