Mr. Micah Heckman
Project Engineer
City of Shakopee
485 Gorman St.
Shakopee, MN 55379
--Sent via email--

Mr. Heckman,

SM Hentges and Sons would like to request a variance to the construction start time on Saturdays and Sundays for the summer of 2021 at the Hentges Industrial Park. There are two projects on-site that may require extra work hours on the weekend. These projects are located in an industrial park with no residential nearby. Our plan is not to work every Saturday, but when the need arises due to weather, time constraints, etc., we will need the option. The Sunday variance would only happen in extreme circumstances. The variance would only apply to SM Hentges and Sons and its subcontractors and not any other contractor that may be on that project. We would like to request a variance of 7 AM start time on Saturday and a 7 AM start time on Sunday with ending times of 8 pm. This variance is for the Hentges Way / Stagecoach Road project as well as the Southwest Logistics Center.

Sincerely,

Robert Brown
